EDUCATION

MIT ADT University

Bachelor of Technology in Computer Science & Engineering

Pune, India

July 2024 – 2028

PROJECTS

SecureAudit | *Python, PowerShell, SQLite, Tkinter, PyInstaller*

- Built a Windows desktop tool that runs approved configuration checks, collects structured evidence, stores scan history, and generates standalone HTML assessment reports.
- Implemented five baseline checks for Windows Firewall, Microsoft Defender, BitLocker, the built-in Guest account, and SMBv1.
- Restricted PowerShell execution to an approved catalog with path validation, timeouts, JSON parsing, and check-ID validation.
- Separated Pass, Fail, and Error outcomes to calculate assessment score and coverage, with SQLite storage supporting review of previous scans.
- Packaged the application using PyInstaller and validated the development build with 89 automated tests; documented the scope and limitations of point-in-time technical assessments.

CERTIFICATIONS

ISO 27001 Lead Auditor

Completed

- Completed ISO 27001 Lead Auditor certification.

Junior Penetration Tester (eJPT) | *INE Security*

May 2026

- Credential ID: 181937915; valid through May 2029. [Verify credential](#)

Web Fundamentals Learning Path | *TryHackMe*

Aug. 2025

- Completed 21 hours 20 minutes of coursework. [Credential: THM-AS5R8PKVHB](#)

Pre Security Learning Path | *TryHackMe*

July 2025

- Completed 7 hours 38 minutes of coursework. [Credential: THM-ZLASOIP0HW](#)

TECHNICAL SKILLS

Languages: Python, PowerShell, SQL

Platforms: Windows, Linux

Developer Tools: Git, GitHub, SQLite, Tkinter, PyInstaller

Security Frameworks and Standards: ISO 27001, NIST CSF, CIS
